

ABOUT EXIN

EXIN empowers professionals worldwide to excel in the digital domain.

Founded in 1984, our portfolio includes relevant industry topics such as SIAM, Project Management, Agile Scrum, AI, Data Analytics, and Information Security.

With a global partner network, and multiple ways to help you prepare for your exam EXIN independently assesses and validates competencies in the digital realm, ensuring that our certifications carry a seal of excellence.

In 2021, we joined forces with the Software Improvement Group (SIG) to amplify our impact and build a healthier digital world.

OUR MISSION

With over 40 years of experience and a strong network of global industry leaders, we offer expert guidance and support to help our customers navigate the complexities of digital transformation.

Our ultimate goal is to help each individual find the right path to success, whether it's through certification or a new career path, so they can make a significant impact and achieve their goals — no matter how big or small.
